Business Intelligence: Dashboards · KPI Reporting · IBM Cognos 8.4 · Data Visualization

ETL & Data Warehousing: Informatica PowerCenter · Data Pipelines · Data Migration · Data Modeling · Performance Tuning

Databases & Cloud: Snowflake · SQL Server · Oracle 9i/10g · AWS

Other Tools: Unix/AIX

Domains: Telecom · Supply Chain · Pricing Analytics · International Operations

PROFESSIONAL EXPERIENCE

Lead Analyst

Oct 2022 – Jul 2025

Colt Technologies · Gurgaon

Advanced Excel · SQL · Snowflake · AWS · Pricing Models · Trend Analysis

- Conducted comprehensive pricing reviews and competitive analysis for telecommunications services.
- Designed and maintained Snowflake data warehouse objects and pipelines to support pricing and trend-analysis reporting, sourcing data from AWS S3 and other upstream systems.
- Performed data analysis in Snowflake and SQL to identify market trends and pricing opportunities.
- Developed pricing models and recommendations using advanced Excel functions and SQL queries.
- Created detailed reports and dashboards, drawing on Snowflake-hosted datasets, for stakeholder decision-making and strategic planning.
- Collaborated with cross-functional teams to implement data-driven pricing strategies.
- Monitored market dynamics and provided actionable insights for business growth and competitive positioning.

Summer Intern — Supply Chain Management, University Relations & Talent

Apr 2016 – Jun 2016

Development

Coca-Cola India · Gurgaon

- Conducted value chain analysis of aluminium cans and sales process automation, plus marketing intelligence research for B2B aluminium sheets and foils markets.
- Analyzed WTO policies and antidumping measures for aluminium commodity trading.
- Developed demand forecast models and conducted tax competitiveness studies.
- Automated forecast and production planning data processes, improving efficiency by 25%.
- Enhanced distribution processes to ensure uninterrupted product delivery across markets.
- Researched international market dynamics and supply-demand impact analysis.

Undertaken as part of the MBA (PGDM-General) program.

Consultant

Sep 2013 – Sep 2014

Deloitte LLP · Gurgaon

- Successfully completed a Proof of Concept (POC) for a Big Data project implementation.
- Led international operations and business development initiatives across multiple markets.
- Generated new business opportunities through strategic client meetings and digital channels.
- Delivered end-to-end project implementation with a focus on quality assurance and client satisfaction.
- Provided mentoring and training for new team members, improving team productivity.
- Managed direct client interactions and comprehensive business requirement analysis.

IT Specialist

May 2010 – May 2013

IBM · Gurgaon

- Served as Data Warehousing expert for multiple high-value client projects.
- Managed project delivery and implementation across international markets.
- Supervised team operations, work distribution and quality standards maintenance.
- Conducted comprehensive business requirement analysis and solution design.
- Maintained consistently high client satisfaction metrics and delivery standards.

System Engineer

Mar 2007 – May 2010

Tata Consultancy Services (TCS) · Gurgaon

- Developed and maintained enterprise software solutions for international clients.
- Participated in system design and architecture decisions for large-scale implementations.
- Collaborated with international teams on complex project delivery and integration.
- Provided technical support and troubleshooting services for critical business systems.
- Contributed to process improvement initiatives, enhancing operational efficiency.

ADDITIONAL EXPERIENCE & ACADEMIC PROJECTS
